

6. CZECH REPUBLIC

I am going to talk about Czech Republic. The Czech Republic is situated in Central Europe. Its and inland state with moderate climate.

Four seasons are changed there: spring, summer, autumn and winter.

The Czech Republic neighbors with Poland in the north, Slovakia in the east, Austria in the south and Germany in the west.

The country is made up of their regions: Bohemia, Moravia, and Silesia.

Politically the CR is divided into 14 districts. Its population is approximately 10 million.

It's a parliamentary democracy, the parliament consists of two houses: The Chamber of Deputies and the Senate.

National flag consists of a white and red stripe and a blue triangle.

The Czech anthem is the song „Where my home is“ by Tyl and Škroup.

CR has its agricultural production for example: grain, sugar-beet, hop, sunflower, potatoes, rape oil.

We are good at mechanical engineering, chemical industry, glass, jewelries, car, furniture and more.

Typical cuisine is beer, pork with cabbage and dumplings, soups, fruit dumplings and sirloin of beef in cream sauce with dumplings.

Famous people are: *Karel Gott*, Karel was a Czech singer. He was born in Plzen and died in Prague 5 years ago. He won more than forty-two times in the Czech Slavik.

Another famous person is Tomáš Garyk Masaryk. He was a Czech statesperson, political activities, and first president of Czechoslovakia from 1918-1935.

As for some historical facts let me mention:

In the ninth century was founded first state The Great Moravian Empire.

The period from the 10th to the 14th century Bohemian region was ruled by the Přemysl dynasty.

Charles IV. was one of the most popular Czech kings from Lucemburk dynasty.

1918 Czechoslovakia was established and T.G.M. was elected the first president.

I live in a village called Hylvaty. I have been living there all my life. We have our own house with big garden, where is pool, flowers bed, slide and swing.

Zdravotní péče v ČR.

1. Describe medical care that is provided in the ČR.

Highly professional and of good quality. Healthcare in the Czech Republic is generally on par with the rest of Europe, and indeed several of the country's key health indicators are above the EU average

2. Name diseases we are vaccinated against.

We are vaccinated against tetanus, measles, polio, hepatitis, tuberculosis.

What do you think of people who refuse vaccination of their children?

I think it's a mistake, their children can pay for it later.

3. Name diseases people dies of in the past.

People died of whooping cough, famine, epidemics, war.

4. What medical supervision is provided to children in the ČR?

The legal representative has custody of the children and is responsible for their state of health.

5. How is medical care in the ČR paid? Health insurance

A doctor who does not have a contract with our insurance company will let us pay for current urgent care.

6. Name some medical and spa facilities in the ČR.

For example, we have spas in cities such as Karlovy Vary, Mariánské Lázně, Františkovy Lázně, lázně in Luhačovice...

7. What types of treatments do you know?

Surgical treatment,
Radiation treatment,
Chemotherapy,
Hormonal treatment,
Symptomatic.
